- An elderly patient got new hearing aids from the doctor. After a short time, he meets the doctor again for a follow up appointment. Doctor, "Your hearing is running perfectly. Your family must be really pleased." Patient, "Oh, I am in a funny situation now. I haven't told my family yet. I just sit and listen to their conversations. It has been expensive because in the last month, I've changed my will three times!"

- Light travels faster than sound. This is why some people appear bright until you hear them speak.
